

Business management game

THE game is run jointly by the Institute of Chartered Accountants of Zimbabwe and the Computer Processing Group.

Each team taking part is given a viable company, which exists only on paper. The team must then run its company successfully to earn maximum profits and pay maximum dividends. The company which succeeds in making its shareholders happiest is the winner.

Since the game's inception, Milton has entered two teams with remarkable success. A team has won the Matabeleland final in 1981, 1983, 1984 and 1985 and the national finals from 1982 to 1984. The 1985 finals will take place later this month.
