A. B. de Beer

*Here is no ancient pile all stained and scarred
By centuries of rain and blasting storm,
Yet in the few short years since thou wast born,
No backward look thy spreading fame has marred,
Forth went thy sons when jealous races warred,
Died at Lalema, and 'mid Flanders' corn,
While Achi Baba grim and battle worn
O'er Milton graves eternally keeps guard.
Proud were the man whose noble name you bear
Could he behold the inmates of your walls.
O'er half a continent thy summons calls
Fathers to place their sons in Milton's care,
Throughout this land thy cry rings loud and long,
"Oh, quit yourselves like men. Be strong, be strong!"*

Editorial

THE visit to Bulawayo of the School's first Headmaster, Mr. E. B. de Beer, was an event of great significance in the history of this institution, for it marked the twenty-fifth anniversary of the opening of the School by Sir William Milton on 25th July, 1910.

It is good for all human institutions to pause at significant points in their

history and to regard the past in the light of what has been achieved and what has been left undone. From such a consideration of the past is born the determination to avoid, if humanly possible, the failures, and to emulate and repeat the successes. No one who listened to Mr. de Beer's inspiring words in the Beit Hall will readily forget what he had to say on the subject of service and duty.

Rugby Notes

THE 1935 season was, on the whole, very successful. The 1st XV and Under XV played good rugby and both teams improved fairly steadily during the season. The Second team was disappointing in its matches, especially during the second half of each game. The Third team gave quite a good account of themselves, but it was not possible to give them enough matches. Towards the end of the season the teams were much disorganized owing to measles and various other afflictions rife in the School.

During the season both Mr. T. E. Francis and Mr. M. Napier were able to give up some time to coaching the First, with useful results, and to them we give our thanks.

The St. John's team, though not up to the standard of the Selborne team, gave quite a stimulus to school rugby, and we were further fortunate in being able to arrange more than the usual number of fixtures against other schools.

As far as general play was concerned, the School had in its earlier matches to rely more on forwards than three-quarters. Later in the season, however, the three-quarters improved very considerably, so that the team was able to play together as a whole. The great fault of our three-quarter work is that the centres still do not give enough scope to their wings but force them too close to touch before they pass.

During the last fortnight the Inter-House matches were played under considerable difficulties owing to the number of people who were ill.

During the season A. Ruda has been captain and J. MacDonald vice-captain.

The St. John's Match

Played at B.A.C. Ground

Lost: 5—6

THIS was a very good match. Fairly early in the game Anderson made an excellent break from our twenty-five, drew the full-back and passed to Cowley, who scored under the posts after a magnificent run. During the first half and the beginning of the second we had the better of the game, but in the last twenty minutes St. John's got moving and scored two tries, holding their advantage till the end of the match.

The 48th Plumtree Match

Played at Plumtree

Won: 13—3

WITHIN the first ten minutes J. MacDonald was crocked and the game depended chiefly on the superiority of our forwards. One movement in particular, in which seven forwards handled the ball, resulted in a beautiful try. Hooper converted two of the tries with excellent kicks. Our forwards were superior in the loose but tended to push too little in the tight scrums.

The 49th Plumtree Match

Played at B.A.C. Ground

Won: 14—6

THE game opened with several good three-quarter movements by the school team, but they failed to penetrate. A forward rush saw the first score (an unconverted try) and there was no further score till half-time. At the beginning of the second half a series of forward rushes gave another try which Hooper converted with an excellent kick. The threes and forwards played well together to score two more tries, while Plumtree scored from a penalty goad and a try from a loose scrum on the Milton line. This was the qualifying round for the Honey Cup.

The Honey Cup Final

Played on the Salisbury ground

Lost: 0—11

UNTIL half-time the match was very even with numbers of good movements but no score. Just before half-time Ralstein got crocked and was useless for the rest of the game. In the second half the team seemed rather disorganized without a scrum-half, and the looseforwards were almost useless. The Prince Edward scores were a penalty goal, a try and a goal—all scored in the last twelve minutes.

St. George's Match

Played on the Salisbury Ground

Won: 14—0

UNTIL half-time the game was very scrappy and disappointing with no

score by either side. After half-time the Milton team got going with a forward rush which resulted in a goal. Then Ruda made a good break from which J. MacDonald scored. This was converted. Some minutes later Ruda put over an excellent drop kick from far out. The rest of the game was fairly good but did not result in any score.

Cricket Notes

THE year has seen some very interesting cricket, including five Inter-School matches. The XI, under the able captaincy of B. E. Bawden, has shown good all round form, although at times the batting has been inconsistent. Mansell and H. MacDonald have been outstanding as bowlers, while the former and B. Bawden have shown good form with the bat. The team suffered depletion during the year, Hodge leaving during the rugby season, and illness prevented R. J. Bawden from playing this term. Their places have been ably filled by Hore and Rosen. The general standard of fielding has been consistently good.

Cape and Colours for 1935 have been awarded to G. Hooper, S. Atkinson, D. G. Hodge, R. Widdows.

STUMPINGS—Arnott 6.

Mansell performed a remarkable feat on 28th September, when playing for the 1st XI against the Banks he took four wickets with consecutive balls. Wisden records that the greatest number of wickets obtained by a bowler with successive deliveries is nine, by Paul Hugo, left hand, in a school game in South Africa, for Smithfield v. Aliwal North, in February, 1931.

The Colts

THE Colts have had a very successful season under the captaincy of C. L. Hirst. It has been agreed that members of the 1st and 2nd XI's are ineligible to play for the Colts and that the age qualification is under 15 on the 1st January. The Colts XI

My Trip to India

My first foretaste of conditions of India was obtained when sailing along the East Coast of Africa to Mombassa and thereafter on to Bombay. Though on a smaller scale than what I afterwards discovered to be the position in India, Indian people live much the same life along the East African

crowed, then another; the faint pink brightened, followed by the sun, just showing above the horizon, casting long shadows upon the ground.

It rose higher and higher, the shadows growing less and less. Soon the sun was clear of the horizon; bathing all in its warm glow and driving away the shadows. All was awake; there was a twittering in the trees; traffic began to move, filling the air with sound. People awoke to welcome a new day.

Rain

A hot and sultry day—no hope of rain.

And then a cloud, a wisp of greyish white,
That 'pon the far horizon since had lain,

With measured pace and slow has come in sight.

And soon the ranks of gath'ring storm are filled;

The thunder roads and lightning floods the sky.

All earthly clamour stops and all is stilled.

The first big drops fall on the earth still dry.

The sun with courage new reveals his face,

Out comes the bow of God's eternal pact;

The deer with joy has left his hiding place

To see the water which the earth has lacked.

The birds and beasts then venture forth in joy,
To bask in bliss till death should them destroy.

Annual General Meeting

THE Fourteenth Annual General Meeting was held at the Palace Hotel on 11th February, 1935, and was well attended. Mr. Livingston took the chair. The secretary, in his report, drew attention to the considerable increase in membership during the

past year—from 34 at the end of 1933 to the remarkable figure of 95 at the close of 1934. Although he considered this increase had been largely influenced by the reduction in the annual subscription at the beginning of 1934, he felt that Old Boys generally were taking a greater interest in the activities of the Association, and that there was every prospect that these numbers would be still further augmented in the coming year.
